# INTRODUCTION

## Dear Kansas City,

I'm Tim Gauntt, the founder of Gauntt Board Company (GBC). Born out of the challenges faced during the 2020 pandemic, GBC is a testament to adaptability and a passion for entrepreneurship. As someone without a traditional business background, I've learned invaluable lessons on this journey, fueled by my innate mix of entrepreneurial spirit and love of carpentry.

Under the GBC umbrella, I've cultivated two distinct brands. The first, Coochie Conditioner, adds a playful twist to the charcuterie world, offering unique and high-quality conditioner and serving boards. The second, Urban Carpenter, reflects my personal journey as a craftsman, aiming to bring beauty and craftsmanship to everyday items. Located in the heart of Mission, Kansas, GBC embraces our local roots while serving customers far and wide.

## OUR KANSAS CITY SPIRIT

At GBC, our passion for Kansas City runs deep. Growing up just a couple of hours away, this city holds a special place in my heart. From cheering on our beloved sports teams to savoring the flavors of world-class BBQ, I embody the true spirit of a Kansas Citian.

We share in the pride of this city's transformation, witnessing firsthand how Kansas City has risen to new heights. We've believed in this city when others doubted, and now we're thrilled to witness its flourishing success. With BBQ coursing through our veins and the distinctive Kansas City swagger, we wear our KC pride like a badge of honor.

Just like you, we proudly sport our KC merch and explore the vibrant streets with the awe of a tourist in our own town. Kansas City's distinctive charm and character inspire us every day, driving our commitment to deliver top-notch products and exceptional service.

As fellow small business owners, we understand the importance of supporting one another. By choosing GBC for your boards and supplies, you not only receive unparalleled craftsmanship and quality, but you also invest in the local Kansas City community. Together, let's celebrate our shared spirit, champion our local businesses, and forge a stronger Kansas City.

Sincerely,

Tim Gauntt

## RESIDENTIAL+COMMERCIAL COUNTERTOPS

Countertops are central in our daily lives, home or workplace. They're often at the heart of activity but seldom take center stage in conversations. In reality, most stone, solid surfaces and laminated materials tend to have a cold and uninviting appearance, lacking in personality. Richlite® paper-based countertops present a notable exception. These surfaces offer a tactile softness and a natural aesthetic that stands out. Richlite has the remarkable ability to infuse warmth and character into space, sparking conversations both at home and in professional settings.

Generally speaking, Richlite material resists stains quite well. As with all countertop materials, there is potential for staining. Most spills and light stains may be cleaned with a damp sponge.

## STAIN RESISTANT

Over time and with use, Richlite will develop a seasoned appearance. There will be more luster in areas of heavier use. Overall, it will appear softer and deeper in tone. It is similar to the manner in which natural wood products deepen in tone over time.

## PATINA+AGING

Richlite is extremely durable. It is stronger than stone and solid surfaces and can endure long spans and cantilevers without additional support. Ask us about the details!
